SOLAR SHOWERS

KUBA SOLAR // TRINIDAD SOLAR //
TOBAGO SOLAR // SABA SOLAR //

Flexible applications; pleasant warm water and modern design – those are just a few of the highlights that embody the solar showers KUBA, TRINIDAD, and SABA. The showers are manufactured using fine materials and safety glass (KUBA, SABA), while stainless steel and a water tank made from aluminum add quality accents. The water tank holds appr. 6,6 gal. of water, which is warmed by the sun's radiation. The single mixing lever is used to regulate the water to obtain the temperature that is most comfortable for you. The water is connected to garden hose system. Each solar shower comes, naturally, with a hand-held shower head that can be controlled separately. The only thing you need to add is sun.

KUBA SOLAR

TRINIDAD SOLAR

The standing plate shown does not come included with the product.

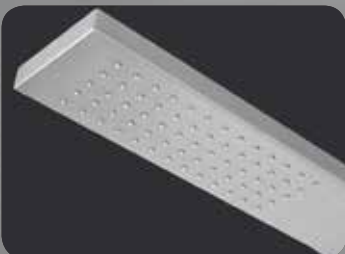

COLD & WARM WATER

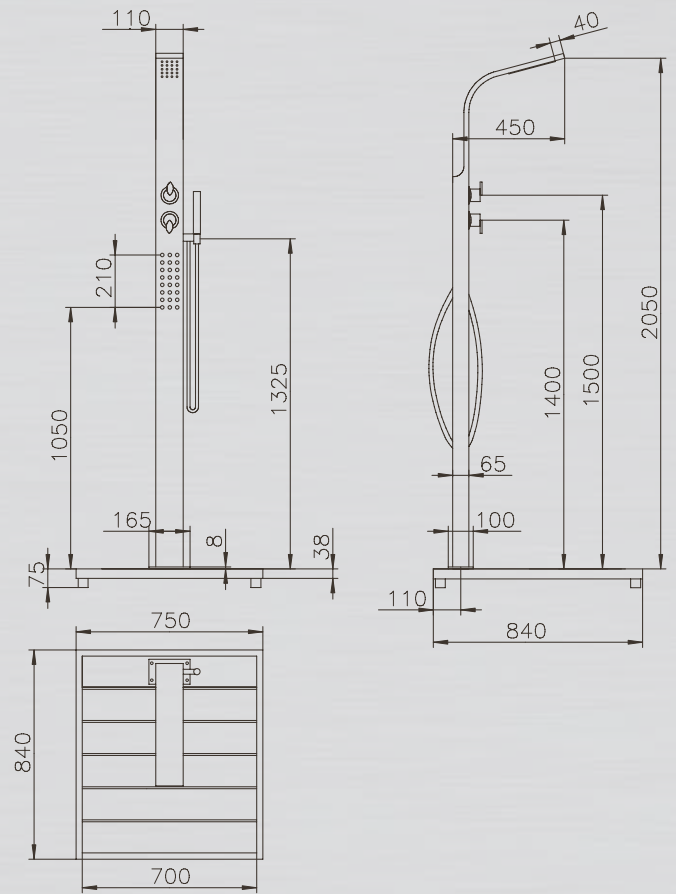

HELENA //

Elegant and regal, the Helena shower shines in every garden. The large floor plate ensures your feet will always stay clean. The shower's many additional functions provide the feeling of a wellness spa. Top shower head, hand-held shower head and a body shower head deliver pure showering fun. Helena has been designed as a warm and cold water shower, with a single mixing tap making it easy to attain the desired water temperature.

HELENA

PRODUCT INFORMATION HELENA:

Technical specifications subject to modification.

MATERIAL:	stainless steel 304 and WPC (Wood Plastic Composite)
TYPE:	Cold & warm water
FUNCTION:	top, body and hand-held shower
HEIGHT, FLOOR TO SHOWER HEAD:	2.050 mm
FITTING:	chromed brass
WATER CONNECTION:	flexible hose; cold and warm water beneath the platform; 2 x 1/2" IG
WEIGHT:	33 kg
FLOOR PLATE:	WPC grate with stainless steel frame

COLD & WARM WATER

ELBA //

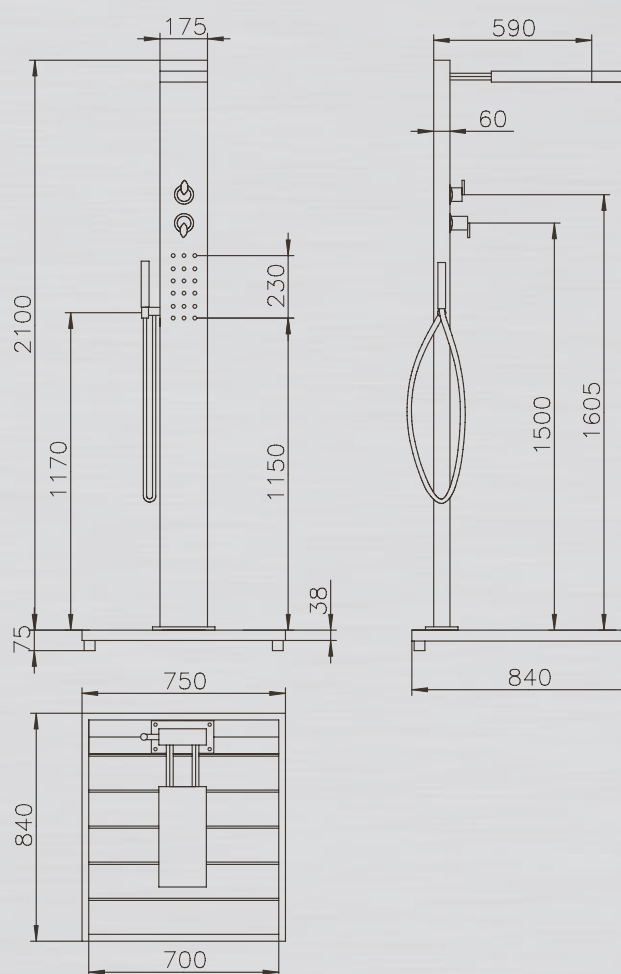

Glossy stainless steel 304, combined with extraordinary design. The Elba shower stands out in every garden. In addition to the hand-held and top shower heads, Elba also features a central body shower for freshening up just as you like it.

Individually controlling water temperature becomes effortless with the single mixing lever. The large foot plate made from WPC hinders the water from spraying back up. That means your feet will always stay clean.

ELBA

PRODUCT INFORMATION ELBA:

Technical specifications subject to modification.

MATERIAL:	stainless steel 304 and WPC (Wood Plastic Composite)
TYPE:	Cold & warm water
FUNCTION:	top, body and hand-held shower
HEIGHT, FLOOR TO SHOWER HEAD:	2.000 mm
FITTING:	chromed brass
WATER CONNECTION:	flexible hose; cold and warm water beneath the platform; 2 x 1/2" IG
WEIGHT:	36 kg
FLOOR PLATE:	WPC grate with stainless steel frame

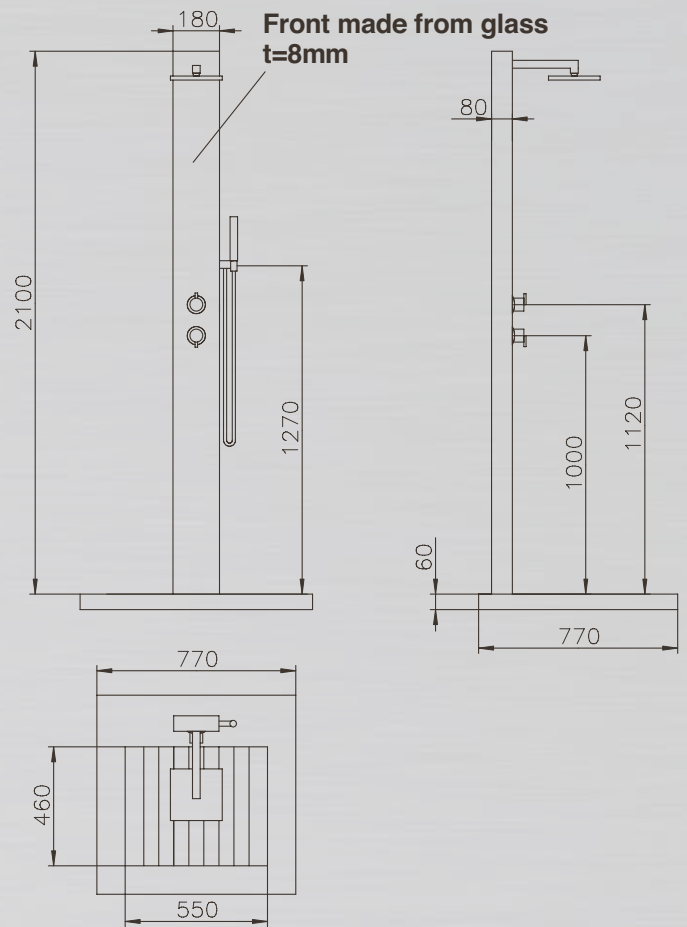

SABA //

Refresh yourself in the style of the former Queen of Saba - but with more elegance and comfort. The SABA garden shower offers particular showering fun. With the large top shower head, you'll experience the pure feeling of a rain shower, while still maintaining flexibility with the hand-held shower head. The single mixing tap makes attaining the desired water temperature effortless. The 8-mm thick safety glass and high quality stainless steel are low maintenance and long-lasting for luxurious showering.

SABA

PRODUCT INFORMATION SABA:

Technical specifications subject to modification.

MATERIAL:	stainless steel 304, 8 mm safety glass, WPC (wood plastic composite) as floor plate
TYPE:	Cold & warm water
FUNCTION:	head and hand-held shower
HEIGHT, FLOOR TO SHOWER HEAD:	2.050 mm
FITTING:	chromed brass
WATER CONNECTION:	flexible hose; cold and warm water beneath the platform; 2 x 1/2" IG
WEIGHT:	37 kg
FLOOR PLATE:	WPC grate with stainless steel frame

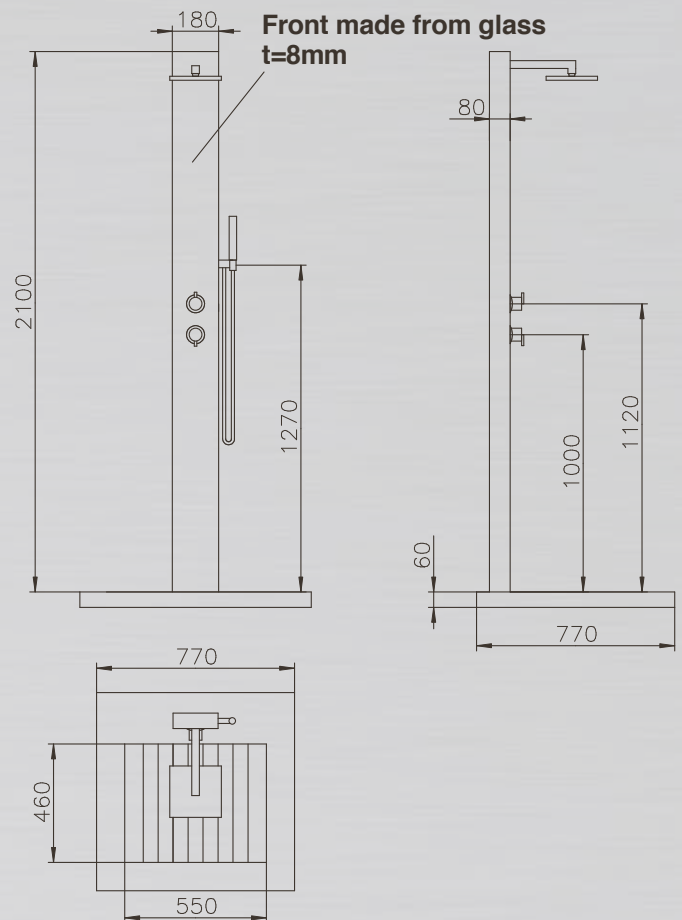

TOBAGO //

Classic white and elegant – the Tobago Shower is an eye catcher for design orientated pool and garden owners. The shower is equipped with a head and a hand-held shower. Easy handling of the water temperature regulation by a single lever mixer and a base plate, made of WPC (wood plastic component) including stainless steel frame, are some highlights. And the combination of high quality stainless steel together with security glass (6mm thickness) combines elegance with easy care use.

TOBAGO

PRODUCT INFORMATION TOBAGO:

Technical specifications subject to modification.

WEIGHT:	37 kg
FLOOR PLATE:	WPC grate with stainless steel frame

KALTWASSER

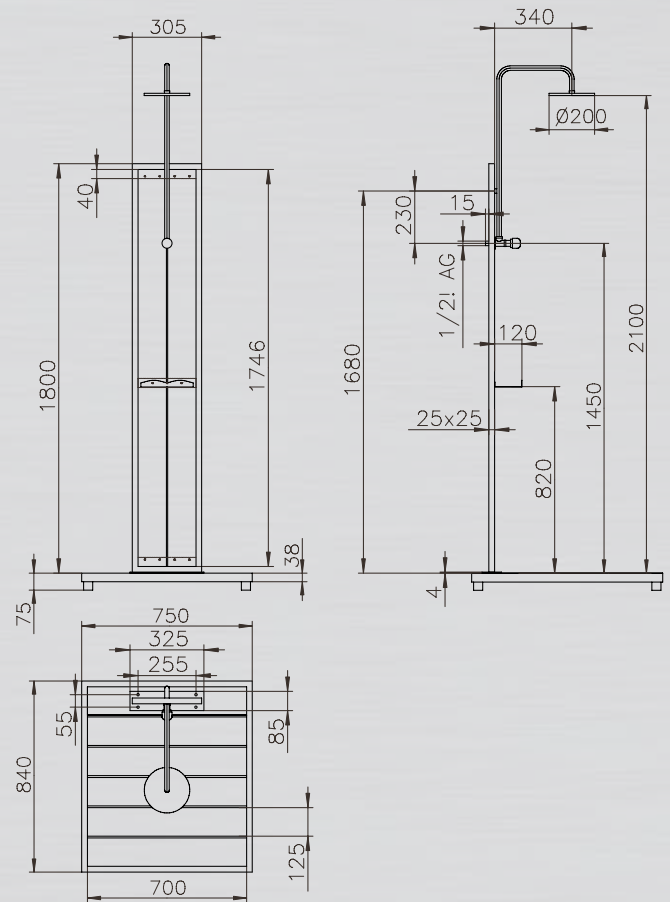

BAHAMA //

This shower's elegance is underscored by the harmony established in the material design. High quality hardwood framed in shining stainless steel give this shower its unique character. The large shower head promises great showering fun, while the integrated floor plate protects your legs and feet against undesired dirtying. The Bahama shower is quickly connected to a garden hose (Gardena, or similar system), which means it ready for use quickly.

BAHAMA

PRODUCT INFORMATION BAHAMA:

Technical specifications subject to modification.

MATERIAL: stainless steel 304 and weather-resistant wood

TYPE: cold water

HEIGHT, FLOOR TO SHOWER HEAD: 2.100 mm

FITTING: chromed brass

WATER CONNECTION: garden hose, Gardena system or similar

WEIGHT: 37 kg

FLOOR PLATE: wooden grate with stainless steel frame

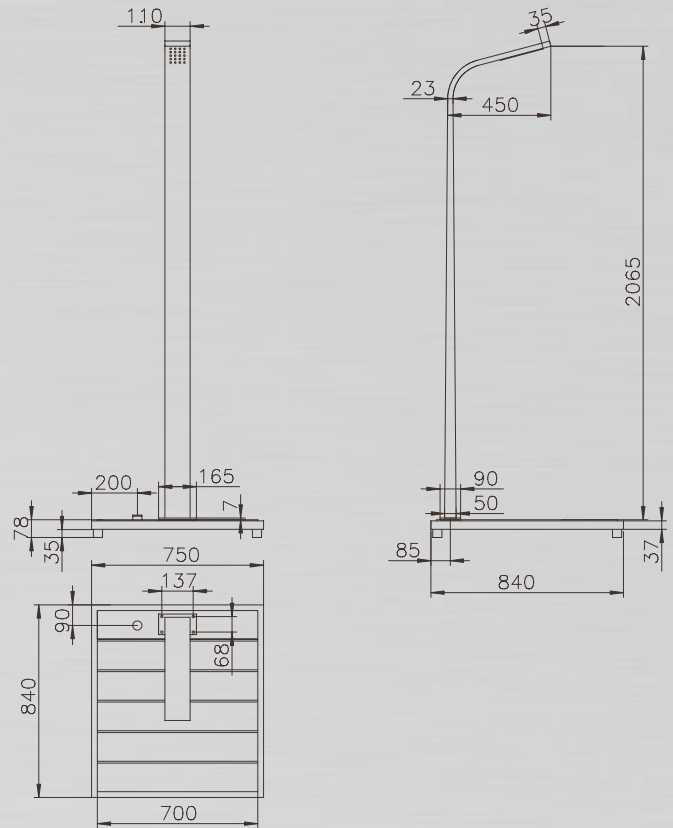

IBIZA //

How do you expect a design garden shower? Slim, noble and elegant! The shower IBIZA refreshes body and eyes. Produced of high-class stainless steel, the shower comes along with a weather-resistant base plate, made of WPC (wood plastic component) Installation and maintenance is easy to handle. IBIZA shower is quickly connected to a garden hose (Gardena, or Similar system) below the base plate. Another highlight: the rainfall shower starts by pressing the integrated bottom on the base plate.

IBIZA
